

Lewis & Clark College

Main Campus

Vehicular Unit Paver Roadway, Grading, Lawn & Planting

1999 to Present

Our first projects at Lewis & Clark College were Core 1 & 2. This involved work around the Manor House. Because of our professionalism, quality, timeliness, and overall concern for the well-being of the campus and it's staff and students, we are continually awarded numerous projects located at all campuses including the Law School. The majority of the projects involve furnish and installing vehicular and pedestrian unit paver roadways and pathways.

Pavers

- Pedestrian Unit Paver Path with Salvaged Cobble Stone Soldier Course

Manor House

- Front of Manor House Vehicular Unit Paver Roadway
- Some Projects we Complete Require us to do Mortar Repair work to Preserve the Historic Cobble Areas

Pathways

- Crushed Gravel Pathway with Salvaged Cobble Stone Soldier Course
