

# Oregon Health & Sciences University

April 2008 - Present

Through consistently providing quality work we have been given additional opportunities to work with OHSU and other members of their maintenance staff. Projects with OHSU require pre-con meetings and planning with Trimet, OHSU Management, and the Traffic & Parking Dept. to reduce any disturbance to the daily routine of vehicular and pedestrian traffic. We have completed many design/build landscapes throughout the campus.

**Peter O. Kohler Courtyard:** Plant (6) new 4.5" cal. trees, repair irrigation, clean up groundcover slopes and plant new groundcover, furnish and install benches and a new handrail, and apply a topdressing of crushed aggregate.

## ***Historic Trailhead***

- Renovate & Restore Historic Trailhead.
- Remove & Re-install Existing Components combined with some new aspects.
- Sand-Set Stone Patio
- Sign Installation
- Bench Installation

## ***Parking Lot 83***

- As General Contractor of the project, we reconstructed the entire parking lot bringing it to City Code & making it ADA Compliant.
- Excavation, Grading & Drainage
- Asphalt, Concrete & Striping
- Bioswale Installation

## ***Planter Bed Waterproofing***

- Cleanout planter beds throughout campus prior to waterproofing by others.
- Set up Safety Barriers
- Transplant & Salvaging of Trees
- Re-install stockpiled soil and plants.
